Help-e-Mail Archive-Vendor-independent e-mail Archiving Solution

Help-e-Mail Archive Solution automatically captures e-mail messages and stores them in Help Internet's off site server storage. Using the solution's integrated Search and Retrieve application, users can easily search, view, and retrieve (re-deliver) messages back to their inbox. Users can even Reply To or Forward Messages (or compose new ones) when the mail-server is unavailable.

Features and Benefits:

- Works with any e-mail system
- Quick and Easy Retrieval of archived e-mails
- Real Time alternative to PST's with instant search & retrieval
- Adds scalable, economical storage to any mail server
- Automatic and instant capturing of all inbound, outbound and internal messages
- e-Mail archive disaster recovery plan

You can Relax in the knowledge that you're in safe hands, helping your business grow naturally
